Annual Salary progression:

Analysts are hired as developmental employees at a starting grade of GG-7 unless they've obtained a master's degree in which case they are hired as a GG-9 and can expect to promote to subsequent grades annually until reaching full-performance level as a GG-12. Once employees reach the full-performance grade, step increases occur based of time in service. Employees may compete to promote to higher GG-13, 14 and 15 positions. Salaries also increase yearly on a regular schedule.
